Typical Overall Traditional Construction Cost: £71.36 /m²
Typical Overall Stabilised Formation Cost: £57.91 /m²
Typical Overall RoadCEM Cost: £41.55 /m²

NOTES: 1. The above scenarios use typical mix designs for the stabilisation & RoadCEM products which are subject to preliminary testing to assess suitability & produce mix designs for incorporation into the permanent works.
2. The above scenarios are to illustrate overall construction cost and do not constitute an offer to undertake any works at the stated rates, each site requires pricing & evaluation based on the issued tender documents.
