

Environmental Policy Statement

Barton Plant Limited is committed to the continual prevention of pollution and to the continual improvement in environmental management and performance. We are also committed to maintain acceptance of all our operations and activities by our trading partners, employees and local community.

- Assess the environmental sensitivity of processes and the impact of operations on the local, regional and global environments and seek to reduce them;
- Employing best available and economic techniques for the control of emissions and wastes and for the optimal use of resource;
- Comply with all applicable environmental legislation and consents;
- Training employees to ensure that they are fully competent to control the activities for which they are responsible;
- Work with suppliers, customers and contractors to promote awareness of the importance of environmental issues and the need to work in an environmentally responsible manner;
- Making Information on our environmental performance publicly available, anticipating and responding to concerns regarding our activities, and encouraging dialogue with interested parties and reviewing environmental objectives and targets;
- Operate in a planned and responsible manner, aiming to prevent pollution through spills and accidental discharges;
- Continually improve our environmental performance and reduce our environmental impact;
- The company will review its environmental performance and objectives annually.
