

Quality Policy

The Company provides **earthmoving, ground engineering, restoration, recycling, landfill and soil stabilisation** to the construction industry.

It is the policy to provide goods and services which give total customer satisfaction. This is achieved by on-time delivery, zero defects and continuous improvement through our quality objectives.

It is recognized that the continued success of the company depends upon the safety, legality and quality of our products if it is to meet the ever increasing levels of satisfaction required by our customers.

Suitable training at all levels within the company ensures that all our personnel are aware and best able to satisfy the current and future needs of our customers.

With this statement the management commits all employees to perform their tasks in accordance with the requirements of our **ISO9001:2015** based **Quality Management System**, so that we can be sure of meeting the requirements of our customers, interested parties and all relevant statutory bodies.

It is recognized that the continued success of the company depends upon the safety, legality and quality of our products and our objective is to comply with and stay certified to **ISO14001:2015 Environmental Management Systems** and **BS OH SAS 18001:2007 Occupational Health and Safety Management System**

In order to ensure that our **quality management system** constantly reflects the requirements of our customers and interested parties, an internal audit of the process and a programme of continual improvement is ongoing.

The company will review its quality performance and objectives annually.
